● ABOUT MYSELF

I am a backend developer based in Barcelona. I mostly develop on PHP + Laravel, Docker and SQL, and I focus on writing clean, maintainable code. I am also familiar with Linux, JS, Flutter, Java and C#. I studied two courses equivalent to an HND (Grado Superior) on Multiplatform and Website Application Development at Monlau CE.

● WORK EXPERIENCE

07/2025 - 11/2025 - BARCELONA, SPAIN

BACKEND DEVELOPER TWENTIC

Development of a back-office tool using Filament for a large energy company. Debugging with PHPStorm, code reviewing and using AI tools and local deployment using Docker.

10/2024 - 03/2025 - REMOTE

SOFTWARE DEVELOPMENT ENGINEER LAUNCHMETRICS

Development and maintenance of an events SAAS platform for fashion brands. Back-end maintenance of procedural PHP and development of new features on PHP + Laravel. Front-end development using React and vanilla JavaScript.

03/2024 - 09/2024 - REMOTE

PHP DEVELOPER ARATECH

Development of a platform to process cadastral and environmental data (GIS) using Laravel and PostgreSQL with the PostGIS extension.

10/2021 - 02/2024 - BARCELONA, SPAIN

WEB DEVELOPER OMATECH

Integration of HTML code with a custom Laravel CMS framework for client websites: Designing data structures, processing client-written data and finishing touches with JQuery. Development of client back-office platforms using PHP+Laravel. Emphasis on clean code and DDD.
